Meeting the DSCSA 2019 Verification Deadline

Verification Router Service (VRS)
Update, 2018 Objectives, Call to Action

Meeting the DSCSA 2019 Verification Deadline

Verification Router Service (VRS)
Update, 2018 Objectives, Call to Action

Panelists

- **Pablo Medina** Associate Director, Product Protection & Commercial Serialization, Genentech Inc.
- **Michael Rowe** Manager – Operations Technology (Track & Trace), Cardinal Health, Inc.
- **Matt Sample** Senior Director, Secure Supply Chain, AmerisourceBergen Corporation
- **Dave Colombo** Director, Life Sciences Advisory, KPMG, LLP
(moderator)

Purpose

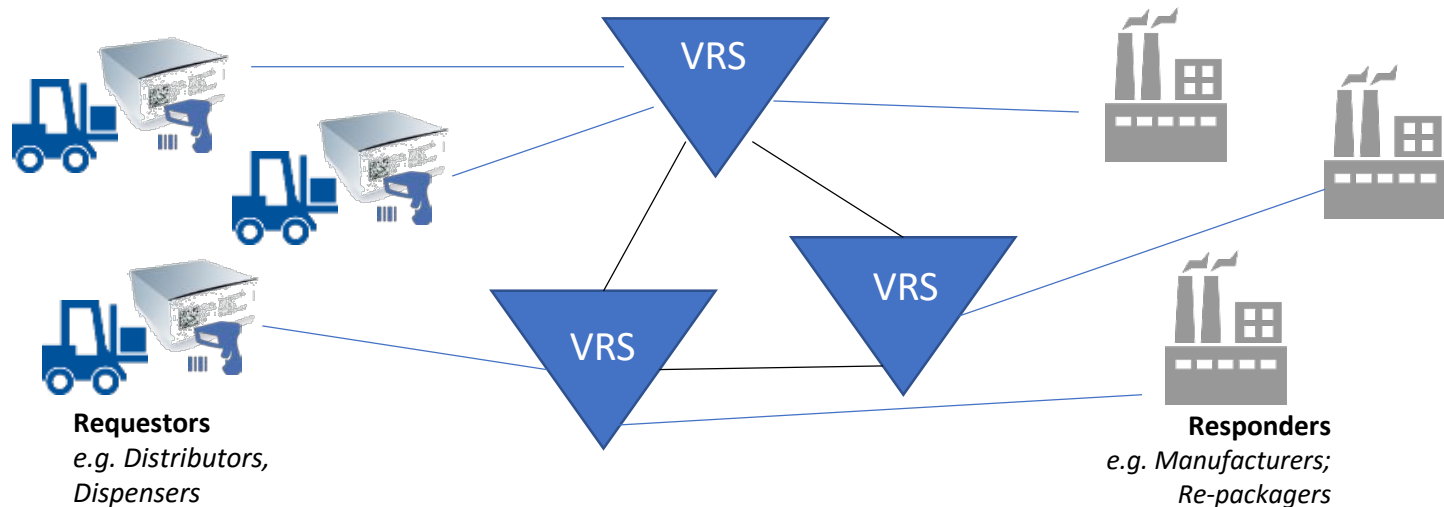

- ❑ Refresher on Verification Router Service (VRS)
 - What is it?
 - Why is it needed?
 - How will it work?

- ❑ Provide update on 2018 activities and work plan
 - Technical Development / Test team
 - Governance / Stewardship team

- ❑ Respond to your questions & obtain your feedback

What is a Verification Router Service?

An interoperable solution used to manage the acceptance, formatting, and delivery of requests and responses in order to support DSCSA verification requirements.

DSCSA Verification Requirements Snapshot*

DSCSA Requirement:	Stakeholder:	Timing:	Impact Level:
582 (b)(4)(A) <ul style="list-style-type: none"> Suspect Product Investigation 	Manufacturer	<ul style="list-style-type: none"> 27-Nov-2017 	Low
582 (b)(4)(C) <ul style="list-style-type: none"> Verification Requests 		<ul style="list-style-type: none"> 27-Nov-2017 	Low-Med
582 (b)(4)(E) <ul style="list-style-type: none"> Manufacturer Saleable Returns 		<ul style="list-style-type: none"> 27-Nov-2017 	Low
582 (b)(4)(A) <ul style="list-style-type: none"> Suspect Product Investigation 	Repackager	<ul style="list-style-type: none"> 27-Nov-2018 	Low
582 (b)(4)(C) <ul style="list-style-type: none"> Verification Requests 		<ul style="list-style-type: none"> 27-Nov-2018 	Low
582 (b)(4)(E) <ul style="list-style-type: none"> Manufacturer Saleable Returns 		<ul style="list-style-type: none"> 27-Nov-2018 	Low
582(c)(4)(A) <ul style="list-style-type: none"> Suspect Product Investigation 	Distributor	<ul style="list-style-type: none"> 27-Nov-2019 	Low
582(c)(4)(D) <ul style="list-style-type: none"> Distributor Saleable Returns Requirement 		<ul style="list-style-type: none"> 27-Nov-2019 	High
582(d)(4)(A) <ul style="list-style-type: none"> Suspect Product Investigation 	Dispenser	<ul style="list-style-type: none"> 27-Nov-2020 	Low

* Refer to the DSCSA regulation for all requirements and associated details:

Saleable Returns by the Numbers*

Annual Saleable Returns - Unit Volume:

~59 Million Units

2-3% of total sales are saleable returns

Annual Saleable Returns - Return Lines:

~31 Million Lines

Weekly / Daily
Breakdown

~1.1 Million Units / Week

~226K Units / Day

Peak # Saleable Returns Units/Day for DC:

4,500 Units

Peak # Saleable Returns Units/Day for Large DC:

10,000 Units

Large Distributor Annual Volume: **~19 million**

Avg. Distributor Annual Volume: **~475 thousand**

Large Generic Manuf. Annual Volume: **~2 million**

Large Branded Manuf. Annual Volume: **~1.8 million**

Average Manuf. Annual Volume: **~90 thousand**

**Distributor
Landscape****

Companies:
34

Facilities:

**Source:
HDA 2016 Factbook

*Data is based on returns processed by participating wholesale distributors November 2014 - October 2015

Why a Router Service model?

Quality / Compliance	Speed / Time	Cost
Accuracy	Data Access / IT Availability	Physical Space Considerations
Risk / Security	Governance	Solution Complexity / Scalability

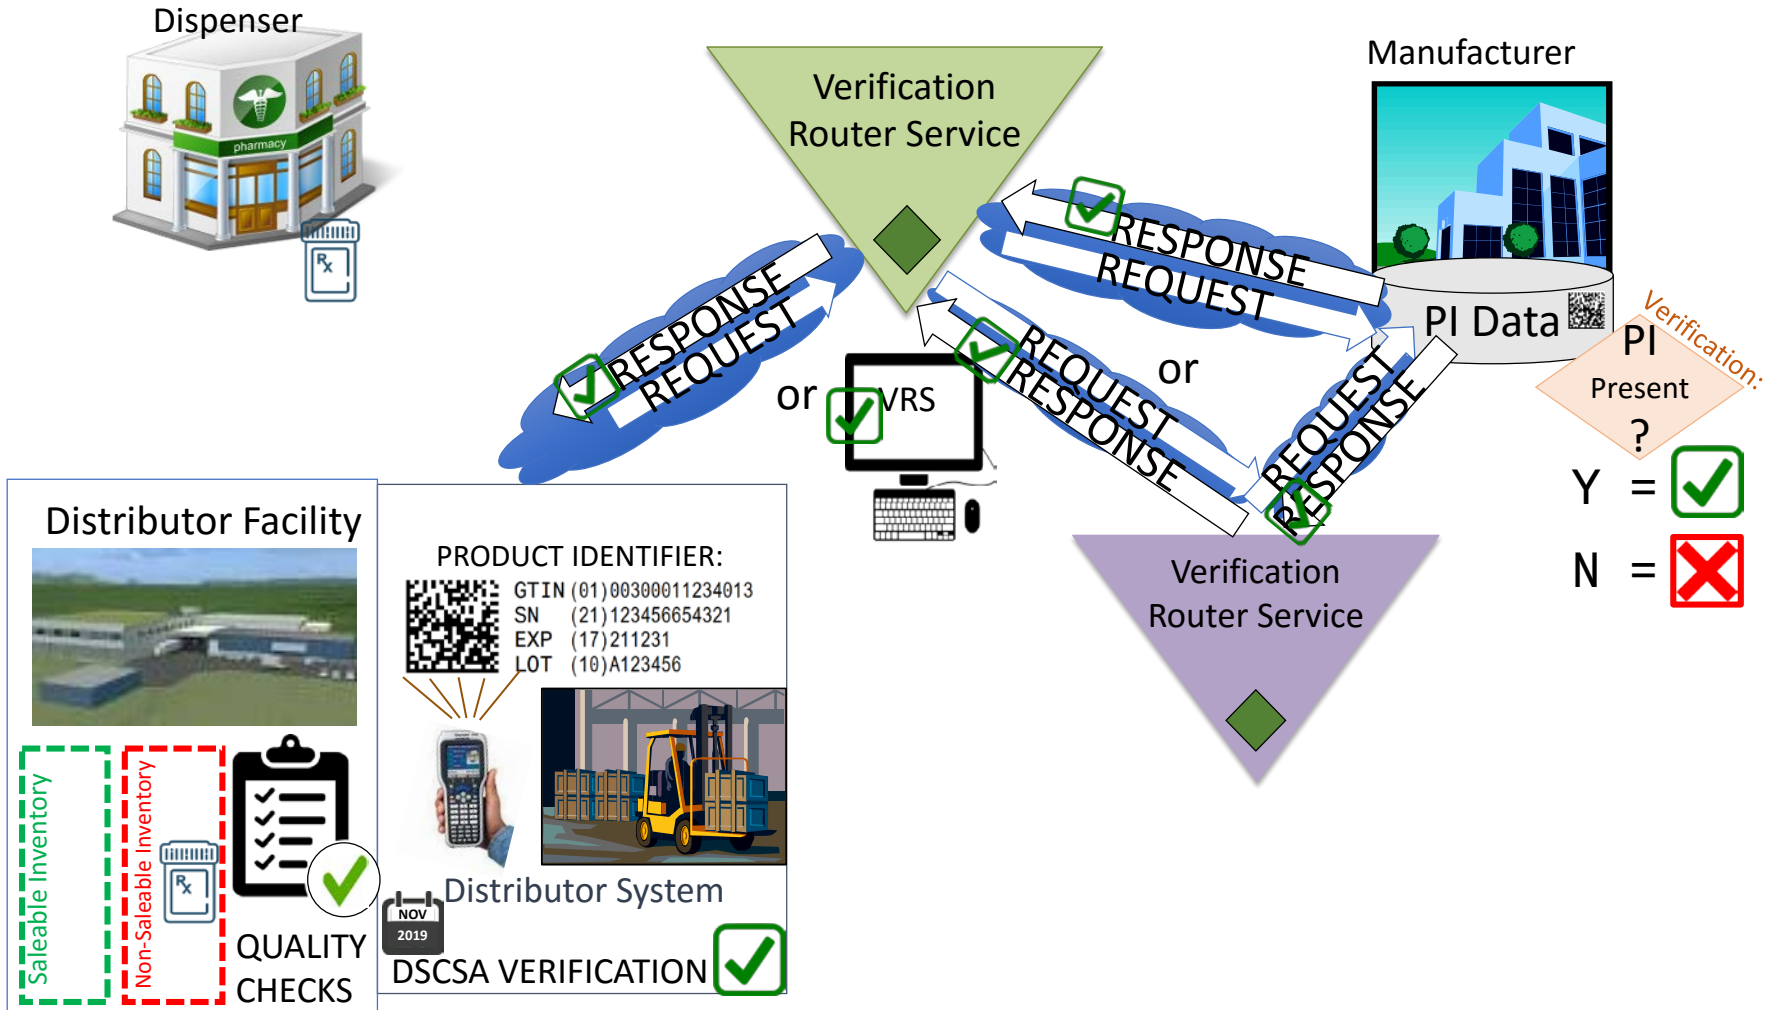

Options assessed: 2016 Returns Pilot:

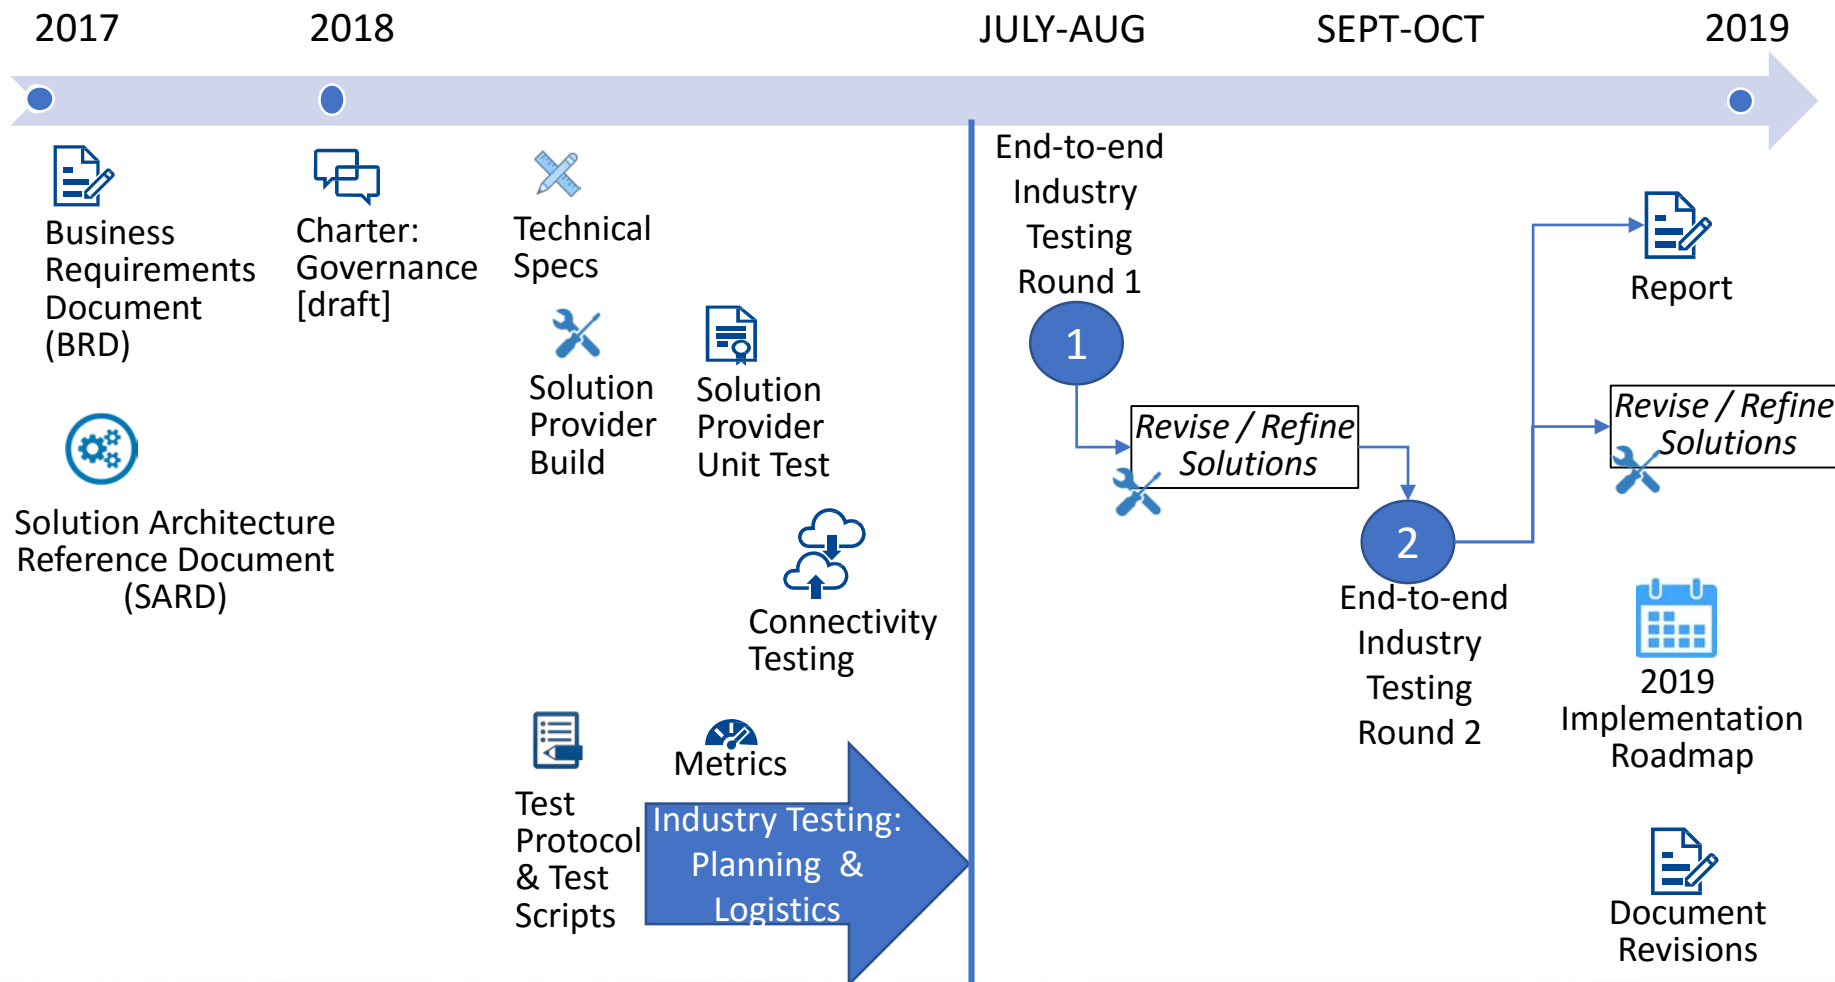

1. **Manufacturer scans PI at time of shipment and sends data to trading partner***
2. Manufacturer sends all PI to all direct trading partners
3. Manufacturer sends PI to central database
4. Distributor scans inbound
5. Distributor scans outbound
6. Distributor point-to-point interface with each Manufacturer
7. Distributor uses Manufacturer-provided portal
8. Distributor contacts Manufacturer (e.g. phone, e-mail)
9. **Router Service**

* most manufacturers / 3PLs are not ready to send PI data before 2019

How will it work?

Update and planned activities

Call to Action

Distributors

- Determine level of integration required with your internal systems. Consider factors such as return volume and frequency.
- Conduct discussions with your trading partners – mutually understand the impact and the planned solution.
- Continue testing and implementing receipt of serialized PI data from the manufacturer / manufacturer 3PL as they become capable.

Manufacturers

- Know your products and your responsibilities, *i.e.* co-licensing, divestiture – who is on point to respond to verification requests?
- Talk to your solution provider and understand their plans and capabilities, *i.e.* how will they be supporting industry with meeting verification requirements?
- Conduct discussions with your trading partners – mutually understand the impact and the planned solution.

Solution Providers

- Clearly define and communicate the scope of your solution moving forward: a) to create/route verification requests/responses; b) to accept requests and respond as manufacturer's serial number repository; or c) to support both
- Update your product roadmap - does it align to the timeline for testing and ultimately production readiness?
- Meet with your current customers to confirm their needs and share your plans.
